

## Consultant Strategy & Data Science - *Junior*

### Job description:

**TheTopLineLab** is a fast-growing data-driven consulting company in Pricing & Revenue Management, which aims to deliver advanced Pricing Transformation with a Modern approach, combining consulting methodologies, data science and software production.

We are looking for a passionate, highly analytical **Consultant in Strategy and Data Science** to join our Engagement Team at *TheTopLineLab* in Barcelona. In this role you will have the opportunity to have a positive impact by influencing key decisions on development of analytical solutions and be responsible for working with multi-disciplinary teams - to blend data analytics and deep business expertise to generate a holistic understanding of the users and markets. We are looking for someone to start as soon as possible.

### Tasks:

The Consultant will be focusing on tasks related to the deployment of our methodology, both on the business and on the data side. The daily tasks will be on data preparation, data modelling and data output management according to business needs. The consultant will be also in charge of supporting the project director in specific phases of client's engagement.

### Skills and requirements:

The consultant must have:

- 1-3 years of experience in similar assignments
- Knowledge of advanced statistics, SQL, and at least one data visualisation tool, as well as Excel, Powerpoint.
- Knowledge of R, or Python, and AWS ecosystem (S3, RDS) is a plus.
- Strong verbal and written communication skills (in English).
- State of the art understanding on the use of data and analytics to drive business goals and insights.
- Knowledge of analytical and problem-solving skills with attention and focus on detail.

### Rewards package:

- Salary and timetable (flexible) to be defined
- Friendly and flexible work environment with talented people
- And more!
